

QUALITY POLICY

S.I.A. Safety Industrial Applications S.r.l. (SIA) operates on a national and international level in the fire prevention field designing, manufacturing and installing fire fighting equipment in accordance with international regulations and carrying out the relative maintenance after the systems and equipment have been installed.

Customer satisfaction is a constant focus inside the company by using a Quality Management System (QMS) that complies with UNI ISO 9001:2015 regulations as well as current legislation relating to safety and the environment.

In order to ensure maximum efficiency of the Quality Management System, the Management undertakes:

- to divulge the Quality Policy throughout the company to implement its execution
- to invest in appropriate means and resources
- to identify the necessity to train personnel
- to carry out a systematic review of the QMS annually to ensure the same is continuously appropriate, suitable and effective in order to satisfy the requirements of the regulatory framework
- to identify opportunities for improvement and to implement plans aimed at achieving appropriate improvements

Every employee of S.I.A., through specific assignments has the direct responsibility of maintaining the requirements of ISO 9001:2015 regulations in their area of competence.

The Management delegates the QMS Manager the necessary responsibility and authority to ensure that the QMS works effectively.
